Enhanced Sports and
Special Events Incident
Management
(Hawaii County)

This 40-hour course will be offered in August and November to support local response capabilities. O-305 provides an overview of how incident management teams function during complex incidents and prepares participants for future position-specific training.

The course is academically rigorous and includes homework and post-class preparation. Participants may not miss more than 10% of the instruction (no more than 3.5 hours) to receive a certificate. Students will be required to bring a laptop, tablet, or suitable device to access online testing links and conduct assigned presentations. Class will be 8AM HST to 5PM HST daily. **Email HIEMA Training & Exercise Team for registration details**

NDPTC Training at Hawaii Convention Center: August 18-22

The National Disaster Preparedness Training Center (NDPTC) will offer **11 unique courses** the week of August 18–22 at the Hawaii Convention Center. These free, FEMA-certified courses cover a diverse range of topics — including community planning for disaster recovery, flood hazards, uncrewed aircraft systems in disaster response, tools for damage assessment and crisis communication, and volcanic crisis awareness — providing valuable, cutting-edge knowledge for Hawaii's emergency management professionals and partners.

HIEMA NQS Informational Sessions

This August & September, HIEMA will host National Qualification System (NQS) workshops in each county, coordinating with county emergency management and inviting participation from other emergency management stakeholders. NQS provides a standardized approach to resource typing and personnel qualifications, supporting effective mutual aid and disaster response across jurisdictions.

Have upcoming training or exercise that's open to the public? Let us know!

If your organization is conducting an event that is open to county, state, federal, nonprofit, private sector, partner participation, etc. email the details to HIEMA T&E and we'll include it in a future update.
